SUMMARY

Backend developer with hands-on experience in building RESTful APIs using FastAPI and Python. Experienced in database integration, backend logic, and API design. Actively seeking opportunities to work on real-world backend systems and enhance technical expertise.

PROJECTS

Doctor Prescription & Appointment System (Backend)

- Developed a FastAPI backend with secure login/signup and JWT-based authentication.
- Built REST APIs for doctors, patients, prescriptions, and appointments with role-based access.
- Implemented database-driven CRUD operations ensuring data security and consistency.

Hotel Booking System (Backend)

- Created backend services using FastAPI and Python for hotel search, booking, and cancellation.
- Implemented APIs for room bookings, Listing hotels, date-based booking logic, and user authentication.
- Designed clean RESTful endpoints with proper request/response validation.

Social Media Application (Backend)

- Built a FastAPI backend for user authentication, profiles, posts, notifications, chats, likes, and comments.
 - Developed APIs for real-time-ready chat, notifications, and content creation (post creation).
 - Designed scalable API architecture for handling social interactions.
-

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence & Data Science	2022 - 2026
Arya College of Engineering & Information Technology, Jaipur	

Senior Secondary (Class XII) – PCM	2022
Oxford International Academy, jaipur	
Board: CBSE	

Secondary (Class X)	2020
Oxford International Academy, jaipur	
Board: CBSE	

ADDITIONAL INFORMATION

- **Technical Skills:** Python, FastAPI, RESTful API Development, JWT Authentication, Database Management (MySQL/MongoDB), Git, Postman
- **Languages:** English, Hindi
- **Certifications:** Cyber Security Training (TechForce Academy, Australia); Oracle Certified Foundations Associate – Fusion Cloud Applications (HCM); Introduction to MongoDB (MongoDB University).
